

MAHESHWARAN S

MERN Stack Developer

+91 85248 58324 | maheshwaran852485@gmail.com | [LinkedIn](#) | [GitHub](#) | Chennai, Tamil Nadu

PROFILE SUMMARY

Motivated fresher MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript (ES6+), MySQL, RESTful API development, Git, and GitHub. Passionate about creating scalable, responsive web applications and eager to contribute to a dynamic development team.

INTERNSHIP

MERN Stack Developer Trainee

Feb 2026 – Present

Besant Technologies, Velachery, Chennai | Full Stack (Frontend & Backend) Developer

- Building full-stack applications using the MERN Stack with frontend-backend integration.
- Developing RESTful APIs, database schemas, and responsive React.js user interfaces.
- Collaborating on real-world projects, applying MVC architecture and component-based design.
- Practising version control and API testing using Git, GitHub, and Postman.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development, JWT Authentication

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, MS Office

PROJECTS

Employee Management System

React.js | Node.js | Express.js | MySQL | [GitHub](#)

- Developed a full-stack employee management app with complete CRUD operations and role-based access.
- Integrated React.js frontend with Express.js RESTful APIs and MySQL relational database.
- Implemented JWT-based authentication, pagination, and CSV export features.
- Tested and validated all API endpoints using Postman ensuring reliability and correctness.

Smart Complaint Resolution System

React.js | Node.js | Express.js | MongoDB | [GitHub](#)

- Built a complaint registration and lifecycle tracking system with three-role access (User, Agent, Admin).
- Designed RESTful API endpoints, normalised database schema, and JWT-based authentication.
- Developed responsive React.js interfaces with Axios interceptors and role-aware routing.
- Integrated aggregation-based analytics dashboard for complaint insights and status tracking.

Cyber Incident & Artifact Integrity Forensic Readiness System

MERN Stack | [GitHub](#)

- Built a cybersecurity incident management platform with Role-Based Access Control (RBAC).
- Integrated SHA-256 hashing for digital artifact integrity verification and audit trail dashboards.
- Designed evidence management workflows and deployed using the Antigravity platform.
- Built dashboards for incident tracking, forensic readiness monitoring, and evidence management.

CERTIFICATIONS

- IBM Full-Stack JavaScript Developer Professional Certificate (*In Progress*)
- MERN Stack Development Training – Besant Technologies
- PL-300: Microsoft Power BI
- AI Revolution in Cyber Security
- Data Science Foundations
- UiPath Automation Implementation Methodology Fundamentals

EDUCATION

B.E. – Computer Science and Engineering

2022 – 2026

Dhanalakshmi Srinivasan Engineering College (A), Chennai | CGPA: 7.5 / 10

ADDITIONAL INFORMATION

Languages: Tamil (Native), English (Professional)

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Quick Learning
